

SEEKING

TRUTH

## **Do all religions lead to the same place?**

Many non believers believe that ALL religions lead to the same place. This is also a belief held by a growing number of confessing Christians too. The reality is only through faith in Jesus Christ alone will one experience that promise of eternal life.

## **Does Christianity reject science?**

There have been numerous advances by science to enhance life as we know it. Science has not explained the existence of God, nor should Christians reject science but understand that through God ALL is given and revealed. God is all knowing, all powerful, and all present allowing both faith and science to exist under the rule of God, the creator of the heavens and the earth.

## **Did Jesus really exist?**

Many historians from various cultures have validated the life of Jesus Christ. While the New Testament Gospels give eye witness accounts of Jesus, non-Christian scholars such as Josephus, Tacitus, and Pliny the Younger all 1st century sources that give accounts of the historicity of Jesus. Include these accounts with the Gospel writings to establish that the historical Jesus.
